Vignobles M&J Perromat

Château Beauregard Ducasse

Cuvée Albert Duran - AOC Red Graves

History

This vineyard (92 Acres) was established in 1850 by Albert Duran, in Mazères, towards the South of the Graves appellation. Jacques Perromat took over his in law's estate in 1983. In honour of the founder, Albert Duran, this is the name that Jacques Perromat chose to give to his cuvée spéciale Graves red wine which is produced from a plot selection of our best vines.

The age of the vines is 30 years old. The vineyard, for this wine, is about 12 Acres.

In order to preserve the grapes quality, we have planted 3 000 vines stock/ Acre. (yield: 40hl/ha)

Terroir

Our terroir in the Graves is marked by its complexity gravel, sand and iron concretions with a predominant clay limestone soil. What make us stand out in comparison to others is that we are positioned on the highest hilltop of the Graves appellation. This means that we benefit from grapes that ripen exceptionally well.

Blending

This vintage emerged from a blend of 50% of Merlot, 40% of Cabernet Sauvignon and 10% of Petit Verdot.

Winemaking

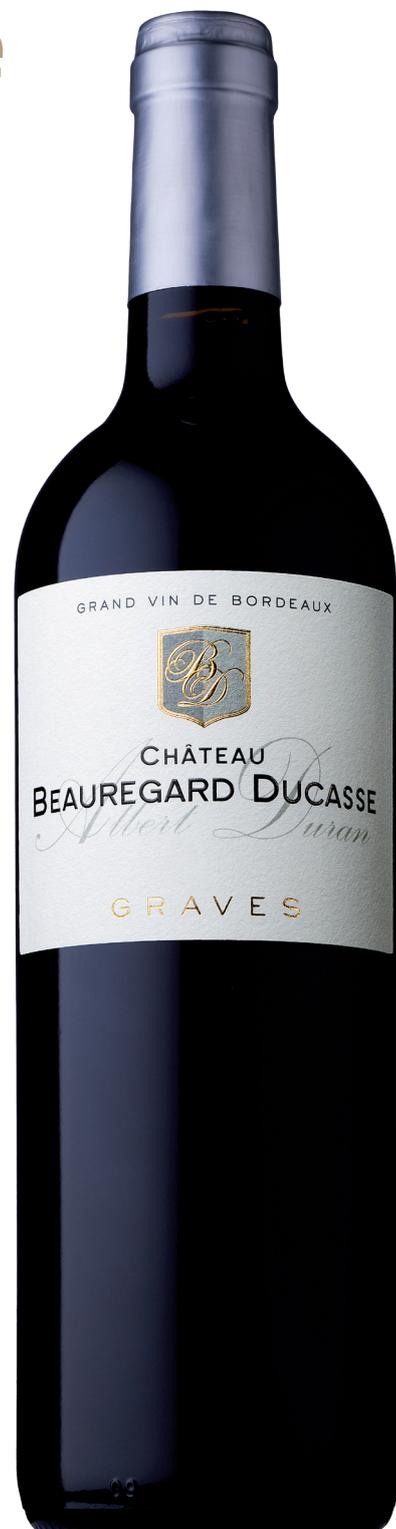

Hand picked harvests to perpetrate the family tradition, complete destemming, cold maceration before the fermentation to enhance the aromatic potential, temperature checks of the fermentation, long extraction between 20 and 30 days.

This cuvée spéciale is aged for 12 months, exclusively in French oak barrels to enhance the wine's complexity and guarantee that it best reflects our terroir.

Tasting notes

"Class in the glass ! This wine benefits from a balanced variety of grapes where the Cabernet brings a flavor and structure and the Merlot provides the perfume and flexibility. The touch of Petit Verdot adds some very elegant tannins and softness to this wine. Elegant and very well structured, fine and aromatic, this vintage evolves with harmony." Jacques Perromat.

Serve between 16 degrees and 18 degrees centigrade with grilled or roast meat duck beef or game and flavourful cheeses.
